

Coming to Grand Rapids
November 13 – 15, 2009

100 geeks
20 non-profits
1 amazing weekend

It happens with your support.

Give Camp connects the technology talent in our community with the needs of local non-profits. In one weekend, developers, designers, database administrators, and other technology professionals work around the clock to tackle the wish lists of 20 non-profits and create web and software solutions.

Why become a sponsor in Grand Rapids?

Your support will help Give Camp in Grand Rapids bring together about 100 volunteers to serve 20 organizations. Projects created over the course of the weekend (November 13 – 15, 2009) would typically cost each non-profit between \$5,000 and \$10,000.

Sponsors help ensure that non-profits continue to benefit from this valuable work, with *no cost* to participate. With your support, we also give volunteers tools to do the work (everything from printing supplies to hosting) and fuel them with food and caffeine throughout the weekend.

How would you like to give?

Sponsorship	Recognition
\$100	Name included on website
\$500	Logo included on website and event presentations
\$1000	Logo included on website, event presentations, and signage
\$2000	Logo included on website, event presentations, signage, and shirts
\$5000	Official host of opening reception and logo included on website, event presentations, event signage, and shirts
Meals (six to be provided, with snacks)	Logo on website and event presentations
In-kind gifts (e.g., hosting, t-shirts)	Logo on website and event presentations

Support a geek, help a non-profit! Visit GRGiveCamp.org to become a sponsor.

Frequently asked questions

How many organizations will be served?

Our goal is to provide enough volunteers to serve 20 organizations.

How are organizations selected?

Each potential participant organization must submit a complete work plan proposal that describes a project appropriate for the time available during Give Camp. Organizations will be selected based on their proposals. Once selected, an organization will be contacted to further refine the scope and requirements of their project with the help of one of our volunteers.

What types of support can be requested?

There will many developers at the event with a wide range of skills, all working hard to complete the projects within the timeframe of the weekend. If skills and time allow, a variety of projects can be created, including web applications, Windows form works, mobile development, and other technologies. In the past, Give Camp has helped organizations establish their web presence, add a new section to their websites, track volunteers for an upcoming event, run a silent auction, and register visitors on a website.

Who volunteers at Give Camp?

A wide variety of passionate people are involved with Give Camp. We welcome a broad range of skills so we can best serve the diverse needs of participating organizations. We also welcome students as volunteers and pair them with more experienced professionals to ensure they can make contributions while also learning. Below are some of the professional backgrounds our volunteers bring to Give Camp:

- Web and software development
- Database administration
- Web strategy
- Design
- Project management and business analysis

In addition to technology professionals, many other volunteers help Give Camp run smoothly. These are the behind-the-scenes heroes who make the event possible, providing for details from set-up to food preparation to clean-up.
